

# FACILISI STORE PRESS RELEASE

## FaCILISI iWork® Pages® Templates - Free on CD with Latest iCreate™ Magazine

### **FaCILISI STORE Thursday, November 18, 2010**

FaCILISI.COM today is pleased to announce that complimentary samples of their iWork® Pages® Templates for Mac® and iPad will be included on the CD packaged with the latest issue of iCreate™ Magazine (#88, on sale Nov. 18, English edition). The international publication, known as "*the creative magazine for Mac® users*," is available in the US, Canada, United Kingdom, Australia... FaCILISI's 1500+ professionally designed, editable templates enable the effortless creation of brochures, flyers, postcards, posters, business cards, invoices, tri-folds, and envelopes. Users need only add their own text and pictures to create stylish documents in iWork® Pages® for Mac OS X®, or iPad Pages® for iOS.

For those without the services of an experienced graphic designer, templates offer an inexpensive, practical alternative. iWork®, Apple's® highly successful application for Macintosh®, consists of three components: Pages® (documents), Numbers® (spreadsheets), and Keynote® (presentations). Pages® provides both word processing and layout and design capabilities. The application is template-friendly; Apple® includes over 180 of their own design, for resumes, brochures, school reports, or invitations. And the application's new sibling, Pages® for iPad, includes 16 starter templates.

FaCILISI.COM iWork® Pages® Templates offers the user an additional 1500+ templates from which to choose. The FaCILISI STORE website, itself of exemplary design, facilitates the browsing experience by displaying templates under three headings: Categories (14), Themes (16), and Packages (40). There 14 Categories are: Brochures (horizontal or vertical or tri-fold), Flyers (h or v), Postcards (h or v), Posters (h or v), Letterheads & Envelopes & Business Cards & Invoices, and Pages® iPad. One can easily navigate through the hundreds of templates in each category. Each can be purchased individually, fostering a mix'n'match approach.
